OPEN CIRCUIT COURSE PRICES

As our lives get busier and busier, people are wanting to learn on-line, at home or in the work environment, on your cell, tablets, and computers. No more long evening lectures, as all theory is on-line, with your instructor following along. Academic theory presented during your practical training.

Please note: All dives are sea dives, offering a minimum of **one hour long**, therefore giving you more experience underwater with your instructor per dive!

OC COURSES	ON-LINE FEE	PRACTICAL FEE	WHATS INCLUDED
